

# SANJANA KHANDEKAR

## CYBERSECURITY STUDENT

9398729089 — sanjanakhanderkar93@gmail.com — Hyderabad, Telangana  
linkedin.com/in/sanjana-khandekar-488011382 — github.com/sanjana9398

## OBJECTIVE

Cybersecurity undergraduate with hands-on experience in network security, security tools, and traffic analysis. Seeking an entry-level position to apply skills in security monitoring, threat analysis, and incident detection while continuing to develop practical cybersecurity expertise.

## EDUCATION

|                                                         |           |
|---------------------------------------------------------|-----------|
| <b>Bachelor of Technology (B.Tech.) – Cybersecurity</b> | 2023–2027 |
| DRK College of Engineering and Technology, Bowrampet    |           |
| <b>Intermediate – MPC</b>                               | 2022      |
| Govt. Junior College                                    |           |
| <b>Secondary School Certificate (SSC)</b>               | 2020      |
| A.V.M.H.S                                               |           |

## TECHNICAL SKILLS

**Programming:** Python

**Networking:** DNS, OSI Model, IP Addressing, & Protocols

**Cybersecurity:** Network Security, Security Monitoring, Threat Analysis, Incident Detection

**Security Tools:** Wireshark , Kali Linux

**Operating Systems:** Linux, Windows

**Git / GitHub:** Git, GitHub, VS Code

## PROJECTS

### Network Traffic Analysis for Cyber Attack Classification with ML

- Analyzed network traffic data to identify and classify different types of cyber attacks using machine learning techniques. “
- Performed data preprocessing, feature extraction, and model training to classify network traffic as normal or malicious.
- **Technologies:** Python, Machine Learning, Pandas, Scikit-learn, Network Traffic Analysis. “

### Online Examination System

- Developed a web-based online examination system for conducting and managing examinations digitally. “
- Implemented features for student registration, online exams, question management, answer submission, and result calculation.
- **Technologies:** Python, Flask, HTML, CSS, SQLite. “

## STRENGTHS

- Problem Solving
- Analytical Thinking
- Quick Learning
- Teamwork
- Communication Skills
- Attention to Detail
